Supplier Qualification Statement

- Hudson Valley Foods LLC confirms pricing is submitted for NB260118, but rows marked PENDING need confirmation before award.
- Delivered price should be treated as final only where both freight and delivered price are populated or note explicitly says standard freight included.
- Allowance values may be off-invoice, billback, or customer rebate depending on contract setup.
- No Bid items were intentionally omitted from the export rather than represented as zero value.
- For compliance: supplier says CN/PFS files are available on request, but not all rows explicitly state the document status.
